JOURNAL

OF THE

American Society of Naval Engineers.

PUBLISHED QUARTERLY

UNDER THE SUPERVISION OF THE COUNCIL.

VOLUME LII.

1940

COUNCIL OF THE SOCIETY:

Rear Admiral HENRY WILLIAMS, U.S.N.
Captain H. M. COOLEY, U.S.N.
Captain LYBRAND P. SMITH, U.S.N.
Commander F. W. PENNOYER, JR., U.S.N.
Commander E. E. BRADY, U.S.N.
Comdr. CHARLES J. ODEND'HAL, U.S.C.G.
Mr. GEORGE B. FERRIER
Mr. HAROLD K. BECK
Commander GUY CHADWICK, U.S.N.
Commander JAMES E. HAMILTON, U.S.N.

WASHINGTON, D. C.
R. BERESFORD, PRINTER, 605 F STREET, N. W
1940.

INDEX TO VOLUME LII, 1940

PAGE

Airflex Clutch for Diesels (Note) 147
Application of Controlled Directional Solidification to Large Steel Castings, by Joseph A. Duma and Stanley W. Brinson 26
Association Notes 152, 340, 519, 697
Axial Vibrations of Engine Crankshafts (Note) 631
Bleick, W. E.; Torsion of a Hollow Tapered Shaft 594
Boiler, A French Rotating (Note) 146
Boilers, A-Type Marine, Water Circulation in, by E. P. Worthen 257
Bolts, Flange, for High-Pressure, High-Temperature Steam Piping (Note) 302
Book Review: "The Judging of the Stability of Ships and the Determination of the Minimum Amount of Stability," by Jaakkd Rohola 336
"Mobilizing Civilian America," by Harold J. Tobin and Percy W. Bidwell 518
Brinson, Stanley W. and Joseph A. Duma; Application of Controlled Directional Solidification to Large Steel Castings 26
C-3 Type Cargo Vessel *Sea Arrow* (Note) 647
C-1 Vessels of the U. S. Maritime Commission 132
Carmick, Edward S., Lieutenant, U. S. Navy, and Harry B. Dodge, Lieutenant, U. S. Navy, Use of an Electrical Strain Gage in Investigating Stresses 557
Casting Industries, Radiographic Development in (Note) 480
Castings, Large Steel, Application of Controlled Directional Solidification to, by Joseph A. Duma and Stanley W. Brinson 26
Characteristics of Welding Arcs and Welding Set Circuits, by Wilmer E. Stine 77
Clutch, Airflex, for Diesels (Note) 147
Controllable Pitch Propeller, by J. H. Strandell 408
"Controllable Pitch Propellers," by J. H. Strandell, August, 1940, Journal, Discussion of by Captain Lybrand P. Smith, U. S. Navy; Lieut. Commander P. D. Gold, U. S. Navy; Asso. Prof. J. M. Labberton, New York University 599
Controllable Pitch Propeller (Note) 98
Controlled Directional Solidification, Application of to Large Steel Castings, by Joseph A. Duma and Stanley W. Brinson 26
Corrosion, Materials, Investigation at Eastport, Me., by W. J. Jeffries 295

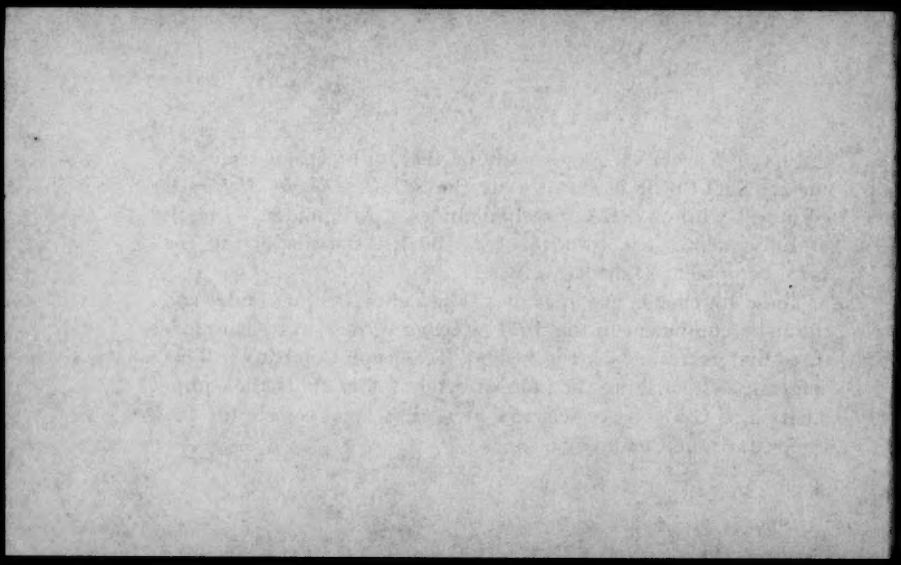
ERRATA.

In the November, 1939, issue of the JOURNAL on page 578 under NOTES it is stated that the *M. V. Donald McKay* is equipped with an RCA direction finder. Also under "Details of Equipment" the JOURNAL lists the direction finder and the radio equipment as made by RCA.


These statements are in error. The radio direction finder and the radio equipment in the *M. V. Donald McKay* were manufactured and furnished by the Federal Telegraph Company. This company is furnishing the radio direction finder and radio equipment in 20 C-2 type vessels and in 10 C-3 type vessels for the U. S. Maritime Commission.
